Announcements

Implementation Update: NIH Data Management and Sharing Plan Requirements. [NOT-OD-26-100](#).

This Guide Notice provides an update to the research community on forms changes when NIH transitions to the updated Data Management and Sharing (DMS) Plan format which includes reporting changes to previously approved DMS Plans.

[EU AI Omnibus enters into force](#) on July 27th 2026

As a result, a clear implementation timeline is set for the rules governing high-risk AI systems. Rules for systems used in certain high-risk areas — including biometrics, critical infrastructure, education, employment, migration, asylum and border control — will apply from 2 December 2027; for systems integrated into products such as lifts or toys, the rules will apply from 2 August 2028.

PRIMED-AI: *Data-to-Model Academic-Industrial Partnerships (D2M-AIP) for Precision Medicine with AI: Integrating Imaging with Multimodal Data (UG3/UH3 Clinical Trial Optional)*, [RFA-RM-27-012](#).

The overarching goal of this notice of funding opportunity (NOFO) and its companion opportunities is to establish the Precision Medicine with AI: Integrating Imaging with Multimodal Data (PRIMED-AI) Program to support development of innovative, reliable, cost-effective, and sustainable multimodal AI-based clinical decision support (CDS) tools.

Closing: October 19, 2026.

Events

Coalition for Resilient Research Data Infrastructure Strategic Plan Launch Webinar

[Registration.](#)

Date and Time: August 7, 2026, 2:00 PM ET

Join the Center for Open Science for a webinar introducing the draft strategic plan for the Coalition for Resilient Research Data Infrastructure (CRRDI), a developing cross-sector coalition focused on strengthening the resilience of federally funded research data. The plan outlines strategies to assess vulnerabilities across the repository landscape, develop sustainable funding and governance models, and coordinate outreach, advocacy, and action when research data are at risk. [Read the plan](#) and share your feedback [by form](#) or email at data-resilience@cos.io. The draft is open for community feedback through September 30, 2026.

Turn Ideas into Impact: Learn how to participate in a New Prize Challenge Competition from the NCI Office of Data Sharing

[Registration.](#)

Date and Time: August 12, 2026, 1:00 PM – 2:00 PM EDT

Speakers: Nathan Boyd, Health Scientist Administrator, NCI Office of Data Sharing. Emily Boja, Branch Chief, NCI Office of Data Sharing.

Join the National Cancer Institute (NCI) Office of Data Sharing (ODS) for a pre-submission webinar introducing a new prize competition: the [NCI ODS Impact Prize](#) (\$200,000 total prize). Learn about the competition's goals, eligibility requirements, submission process, and key deadlines. The session will conclude with a live Q&A to address participant questions.

Childhood Cancer Data Initiative Symposium

Join the [Childhood Cancer Data Initiative \(CCDI\)](#) Symposium on September 18, 2026, to reflect on our progress and shape what comes next in childhood cancer research. At this hybrid event, offered both in person at the National Cancer Institute (NCI) Shady Grove Campus in Rockville, MD and online, we will highlight the foundational work accomplished by CCDI so far and work together with members across the cancer research community to explore opportunities to accelerate discovery and improve outcomes for children, adolescents, and young adults through an interoperable data ecosystem and innovative use of AI.

CCDI Virtual Workshops

NCI will also be holding three virtual workshops over the summer to collect feedback and input from the community on topics critical to the priorities of CCDI.

How Do We Effectively Use AI to Improve Pediatric Clinical Trials? Friday, August 14, 2026, 10:00 a.m. - 11:30 a.m.

Accelerating Pediatric Cancer Research and Treatments through AI-enabled Analysis and Computational Approaches Monday, August 17, 2026, 10:00 a.m. - 11:30 a.m.

and Computational Approaches Monday, August 17, 2020, 10:00 a.m. - 11:00 a.m.

Patient Permissioning and Authorities Needed to Connect the CCDI Ecosystem Across Networks and Platforms Monday, August 24, 2026, 10:00 a.m. - 11:30 a.m.

We invite all members of the community to attend – [register today!](#)

NCI ODS Fourth Annual Data Sharing Symposium

Join NCI and cancer research colleagues as we gather for the [Fourth Annual Data Sharing Symposium](#), a free hybrid event!

On November 5th and 6th, the NCI Office of Data Sharing (ODS) is hosting the Annual Data Sharing Symposium *Data to Discovery: Leveraging Cancer Data in the “Real World.”* This event will focus on the advancement of cancer research by leveraging real world cancer data through sharing and reuse. [Register here.](#)

Attendees are invited to present a poster describing how data sharing has impacted your cancer research, or to set up a table to demo an innovative data sharing product. For submission and additional details see the [abstract submission](#), **deadline Tuesday, September 1, 2026.**

- Posters that showcase novel, impactful, or other meaningful efforts to increasing FAIR sharing of cancer research data are welcome
- Groups who would like to showcase innovative cancer-relevant data sharing capabilities or strategies are welcome to apply for a table setup

Our goal in ODS is to bring together experts and stakeholders throughout the cancer research community (policymakers, scientists, clinicians, and students across government, academia, industry, and advocacy) to learn from one another and explore ways to improve the implementation of new data sharing policies for the greatest public benefit.

[Email the Office of Data Sharing](#) if you would like more information or have general questions.

We'd love to hear from you! Contact the ODS team at: nciofficeofdatasharing@mail.nih.gov
