### Events

## 2026 NCI Data Jamboree Office Hour

The National Cancer Institute invites you to participate in the [NCI Data Jamboree: Enhancing Data Sharing and Utility to Advance Cancer Research](#), November 16–18, 2026, at the NIH Neuroscience Center in Rockville, Maryland. This collaborative event will bring together researchers, trainees, citizen scientists, patients, and advocates to work in small teams and solve scientific and technical challenges using publicly available cancer research datasets. Participants will gain hands-on experience in cohort building, data access, integration and analysis, contribute to the development and application of tools and approaches, evaluate data quality and AI-readiness, and help identify gaps in existing resources.

To address any questions you may have, the NCI Data Jamboree Planning Committee is hosting an Office Hour for interested participants on **April 10 at 11AM - 12PM ET. To attend, join from the [Webex link](#).**

---

### NCI ODS Data Jamboree Seminar Series – April

#### [Registration](#).

The National Cancer Institute (NCI)'s Office of Data Sharing (ODS) will continue a monthly webinar series for jamboree project teams to share their findings, lessons learned, and future directions in April.

Date and Time: April 14, 2026, 11:00 AM - 1:00 PM ET

Moderator: Emily Boja, NCI ODS

Speakers: Daniela Orchanski, Scirelab at Foundation for the Progress of Medicine, National University of Cordoba, and CONICET. Yanling Sun, Baylor College of Medicine. Trinh Nguyen, National Cancer Institute. Brian Calpado, National Cancer Institute. Weiping Ma, Icahn School of Medicine at Mount Sinai.

---

### CCDI Webinar: Molecular Targeted Therapies Reveal Glioma Cell Plasticity Linked to Immune Evasion in BRAF-Mutant Brain Tumors

Tuesday, April 14, 2026, from 1:00–2:00 p.m. ET

Join the Childhood Cancer Data Initiative (CCDI) for our next talk featuring Dr. Claudia Petritsch from Stanford University School of Medicine. Dr. Petritsch will lead a discussion on cancer models in oncology: why we need new models, what can be achieved with these models, and how National Institutes of Health initiatives are helping address critical gaps in cancer model development. She will also present her recent study on therapy resistance in BRAF-mutant brain tumors.

**Announcement**

## Request for Information (RFI): Inviting Comments and Suggestions on a Framework for the NIH-Wide Strategic Plan for Fiscal Years 2027-2031. [NOT-OD-26-047](#).

This RFI invites input from stakeholders throughout the scientific research, advocacy, and clinical practice communities, as well as the general public, regarding the proposed framework for the NIH-Wide Strategic Plan for FY27-FY31. The NIH seeks comments on, but not limited to, NIH's Goals across the three Priorities articulated in the framework—including potential benefits, drawbacks, opportunities, or challenges, and other areas of focus for consideration. All comments must be submitted electronically on the [submission website](#). Responses are due **May 16, 2026**.

We'd love to hear from you! Contact the ODS team at: [nciofficeofdatasharing@mail.nih.gov](mailto:nciofficeofdatasharing@mail.nih.gov)
